HOLTON, MICHIGAN

When buying lining out stock from us you are getting material propagated from the best seedstocks obtainable.

We have special connections in Norway from where we get our Norway Spruce and Scotch Pine seeds and several varieties of Junipers, the same party gets our Mugho pine seeds from the Orkney Islands. Visiting nursery men tell us they have never seen seedling equal to our stands of these varieties.

Our Austrian pine seeds are from the tall timber stands in the foothills of the Tyrolean Alps and the seedlings from these at two years old are a wonder to nurserymen not acquainted with them.

Our seedlings are grown under irrigation on soil which is ideal for thrifty growth and vigorous root development.

We guarantee our stock to be true to name, and to be delivered to carrier in perfect condition, and we employ the most up-to-date methods of packing. After stock is in the hands of the public carrier, our responsibility ceases.

Terms of sale are Net, Cash with order, unless other arrangements are made before shipment. Packing free. Samples at cost of stock, plus postage.

We advise express shipments. If small orders are to be sent parcel post sufficient postage must accompany the order.

No sales of less than 100 of a grade or variety, except when so stated in this list. 500 at 1000 rates.

### **Picea Exelsa (Norway Spruce)**

	<b>100</b>	<b>1000</b>
2 yr. 4-8 inch Seedlings	\$ 1.00	\$ 8.00
" 8-10 " "	1.50	12.00
" 10-12 " "	2.00	18.00
" 12-15 " "	3.00	25.00
" Field run, all grades, Mixed		17.00

### **Picea Engelmanni (Engelman Spruce)**

#### **Everyone Blue**

2 yr. 2-4 inch	2.50
2 yr. 4-6 "	4.00
3 yr. 6-8 " very heavy	5.00
3 yr. 8-10 " " "	6.00

### **Picea Albertiana (Black Hills dwarf Spruce)**

2 yr. 1-3 inch seedlings	2.00	15.00
--------------------------	------	-------

### **Picea Parryana Pungens (Colo. Blue Spruce)**

Field run, but from selected blue seedstocks

2 yr. 2-4 inch	2.00	14.00
----------------	------	-------

### **Abies Concolor (Colorado White Fir)**

2 yr. 3-5 inch seedlings	2.50	20.00
--------------------------	------	-------

### **Pseudotsuga Douglassi (Douglas Fir)**

2 yr. 3-5 inch seedlings	2.60	20.00
--------------------------	------	-------

Many extravagant claims have been made for lining out stock grown under unfavorable climatic conditions in the far north. Experienced nurserymen, however, know that hardiness depends on two things; First, it must be inherited from the parent seed stock. Second, it depends on the ability to mature early and capacity to store up plenty of starch for winter food.

Slow grown, stunted stock is deficient in stored up starch, and are tardy in recovering from the shock after being transplanted to the open field.

**Pinus Ponderosa Scopolorum**  
(Colorado Long Leaf Bull Pine)

	<b>100</b>	<b>1000</b>
2 yr. 3-4 inch seedlings	2.00	15.00

**Pinus Laricio Nigra** (Austrian Pine)

2 yr. 8-10 inch heavy seedlings	2.00	15.00
" 10-12 " " "	2.50	18.00
2 yr. field run 6-12 inch	1.50	17.00

**Pinus Sylvestris** (Norwegian Scotch Pine)

2 yr. 8-12 inch heavy seedlings	2.50	20.00
" 12-14 " " "	3.00	25.00
" field run 8-14 inch seedlings	2.75	22.50

**Pinus Pumila Mughus** (Orkney Is. Dwarf Pine)

flat topped, stocky	<b>50</b>	
3 yr. about 4 inch spread	\$ 3.00	5.00

**Biota Orientalis Glauca**

(Blue-green Oriental Arbor Vitae)

2 yr. 6-8 inch seedlings	1.50	10.00
" 8-10 " "	2.00	15.00
" 10-15 " "	3.00	25.00
" field run 6-15 inch	2.50	20.00

**Biota Orientalis Aurea** (Oriental Arbor Vitae)

Stocky, upright grower, turns a golden bronze color in autumn. We believe this to be more resistant to summer heat and lack of moisture than any other evergreen. We have a block of these transplanted last year as one-year seedlings. The stand is very nearly 100% and they are standing in open field without irrigation; we had no rain from May 5 till Aug. 18, and in spite of extreme heat, these trees kept up a steady growth and not a sign of sunburn. They are now fine, stocky specimens averaging 18-24 inches.

	<b>100</b>	<b>1000</b>
2 yr. 6-8 inch seedlings	\$ 2.00	\$ 18.00
" 8-10 " "	2.50	20.00
" field run 6-10 inch	2.25	19.00
3 yr. 12-15 inch seedlings, stocky	4.00	

3 yr. transplanted spring 1935, selected stocky specimen stock, ball and burlapped, should be shipped freight or truck.

	<b>10</b>	<b>100</b>	<b>1000</b>
15-18 inch	\$3.00	\$25.00	\$200.00
18-24 inch	4.00	35.00	250.00

Lighter grade from same block, well filled No. 1, stock splendid for hedges and screen plantings, not balled, roots puddled and safely packed.

12-15 inch	\$15.00	\$120.00
18-24 inch	18.00	150.00
field run lightest grade, 12-24 inch	15.00	120.00

**Juniperus Chinensis Glauca**

Upright Chinese juniper, blue-green color, very fast grower, a little less compact in form than the Swedish juniper, but much hardier and less subject to juniper blight, very nearly true to form and color from seeds, roots very vigorous and should be severely cut back before planting.

	<b>50</b>	<b>100</b>
2 yr. 6-8 inch, branched	\$3.00	\$5.00
2 yr. 8-10 inch, heavily branched	4.00	6.00
2 yr. 10-12 inch, heavily branched	5.00	7.00

## **Juniperus Virginiana (Red Cedar Northern)**

	<b>100</b>	<b>1000</b>
1 yr. 3-4 inch seedlings	1.50	12.00
2 yr. 4-6 " "	2.00	15.00
2 yr. 6-8 " " branched	3.00	20.00
10-12 " " heavily br'h'd	4.00	30.00

## **Juniperus Virginiana (Platte River)**

Same grades and prices as northern.

## **Larix Lept' lepis (Japanese Larch)**

1 yr. 4-6 inch seedlings	1.00	8.00
2 yr. 6-8 " "	1.50	10.00
2 yr. 8-10 " "	2.00	15.00
2 yr. 10-15 " "	3.00	20.00
2 yr. field run 6-12 inch	2.00	15.00

## **Acer Platanoides (Norway Maple)**

Grown in open field without irrigation, stocky and well rooted.

1 yr. 4-8 inch seedlings	1.00	8.00
2 yr. 8-10 " "	2.00	15.00
2 yr. 10-12 " "	2.50	20.00
2 yr. 12-15 " "	3.00	25.00
2 yr. 15-18 " "	4.00	30.00

We pass along, for what it is worth, our last year's experience, with the extremely adverse weather conditions, we have been through. Last fall we done considerable forestry planting, on unscalped ground, and all survived the winter in fine shape, though the growth this summer was light, it is a good stand.

Last spring's planting on scalped ground was nearly a total failure, the same conditions prevailed in our nursery plantings.

From now on our lining out work will be done in early fall, and we shall sow oats broadcast between the rows, to prevent heaving in the spring.

## **Acer Rubrum (Red Soft Maple)**

2 yr. 12-15 inch seedlings	2.00	15.00
----------------------------	------	-------

## **Hickoria Ovata (Shagbark Hickorie)**

## **Hickoria Lacinata (Shellbark Hickorie)**

2 yr. 4-8 inch seedlings	1.50	10.00
--------------------------	------	-------

These Hickories have enormous roots and should be cut back to about 8 inches before planting.

## **Aesculus Hippocastanum**

(European Horse Chestnuts)

Heavy little trees grown in open field without irrigation, from seeds gathered in Manistee County, Michigan.

1 yr. 4-6 inch seedlings	2.00	15.00
--------------------------	------	-------

## **Prunus Serotina (Black Cherry)**

2 yr. 3-4 ft. bush, form well branched	3.50	
--	------	--

## **Acer Negundu (Pacific Coast Box Elder)**

2 yr. 4-6 ft.	3.00	20.00
---------------	------	-------

## **Cornus Florida Alba**

(White Flowering Dogwood)

Grown from hardy seed stocks gathered in our own woods.

1 yr. 6-8 inch seedlings	1.50	
2 yr. 12-15 " " branched	3.00	
2 yr. 18-24 " " "	4.00
